THUNDER BLAST MAN

Tonight the whole Chiateng City and its citizens are very high in various recreational activities that are carried in commemoration of its centennial. Just when a crowd of VIPs gathering in the Mayor's residence were raising their glasses to toast Chiateng City, a mysterious stranger broke into the house from the window and quickly flew away with the captured Mayor's daughter, Rose. Very quickly several explosions broke out successively on the street and the whole city was soon in fire.

Do you think that these people, now all at their wits' end, could do nothing but wait and be played by the jerk or some miracle would happen and the people were rescued?
